mirroring the long established structure of the financial industry eu financial regulation as we know it today approaches banking insurance and investment services separately and often divergently in recent decades however the clear separation between financial sectors has gradually evaporated as business lines have converged across sectors and fintech solutions have emerged which do not fit traditional sector boundaries as the contours of the traditional tripartition in the financial industry have faded the diverging regulatory and supervisory

treatment of these sectors has become increasingly at odds with economic reality this book brings together insights developed by distinguished researchers and industry professionals in a series of articles analysing the main areas of eu financial regulation from a cross sectoral perspective for each specific research theme including prudential regulation corporate governance and conduct of business rules the similarities as well as gaps overlaps and unjustifiable differences between banking securities and insurance regulation are clearly presented and discussed this innovative research approach is aimed at informing lawmakers and policymakers on potential improvements to eu financial regulation whilst also supporting legal and compliance professionals applying the current framework or looking to streamline compliance processes

the financial system and its regulation have undergone exponential growth and dramatic reform over the last thirty years this period has witnessed major developments in the nature and intensity of financial markets as well as repeated cycles of regulatory reform and development often linked to crisis conditions the recent financial crisis has led to unparalleled interest in financial regulation from policymakers economists legal practitioners and the academic community and has prompted large scale regulatory reform the oxford handbook of financial regulation is the first comprehensive authoritative and state of the art account of the nature of financial regulation written by an international team of leading scholars in the field it takes a contextual and comparative approach to examine scholarly policy and regulatory developments in the past three decades the first three parts of the handbook address the underpinning horizontal themes which arise in financial regulation financial systems and regulation the organization of financial system regulation including regional examples from the eu and the us and the delivery of outcomes and regulatory techniques the final three parts address the perennial objectives of financial regulation widely regarded as the anchors of financial regulation internationally financial stability market efficiency integrity and transparency and consumer protection the oxford handbook of financial regulation is an invaluable resource for scholars and students of financial regulation economists policy makers and regulators

this book analyses different strategies and their results in implementing financial regulation in terms of rule making public enforcement and private enforcement the analysis is based on a comparative study of conduct of business regulation on mis selling of financial

instruments in the UK and South Korea it extends into liquidity regulation in the banking sector and credit rating agency regulation the book concludes that in rule making purposive rules are more effective for achieving regulatory goals with minimal undesirable results but a rule making system with purposive rules can only work on a foundation of trust among rule makers enforcers and the regulated that with respect to public enforcement the enforcement strategies should combine the compliance oriented and deterrence oriented approaches and be continuously adjusted based on close monitoring of the regulatory outcomes and that in private enforcement regulation should be instituted as the minimum requirement in private law

this is the seventh edition of the leading work on transnational and comparative commercial financial and trade law covering a wide range of complex topics in the modern law of international commerce and finance as a guide for students and practitioners it has proven to be unrivalled the work is divided into three volumes each of which can be used independently or as part of the complete work volume 3 deals with financial products and financial services the structure and operation of banking and of the capital markets the role of modern commercial and investment banks and financial risk stability and regulation including the fallout from the 2008 financial crisis and the subsequent regulatory responses in the US and Europe in sections on products and services the blockchain and its potential are noted in the payment system in the custodial holdings of investment securities and in the derivative markets a section on regulation critically reviews the need for macro prudential supervision and an independent macro prudential supervisor the role of resolution authorities the operation of the shadow banking system and the extraterritorial reach and international recognition of financial regulation all three volumes may be purchased separately or as part of a single set

the trade and development report 2009 subtitled responding to the global crisis climate change mitigation and development addresses the main issues of global economic outlook and short term policy response to the financial and economic crisis international monetary reform to complement stricter financial regulation and climate change mitigation as a process of structural change the report analyzes global economic prospects within the framework of the current economic and financial crisis it also heeds the short term fiscal financial and monetary policies that were adopted in response to the impacts of the 2008 2009 crisis it also looks at the question of how increased

efforts aimed at climate change mitigation can be combined with forward looking development strategies and rapid growth in developing countries
